FULL STACK SOFTWARE ENGINEER

I am a Full Stack Software Engineer with 9+ years of professional experience. My passion for this constantly evolving field resonates deeply with me. I continue to be inspired to excel as a software engineer and I am eager to be part of a team with similar goals.

EXPERIENCE

2011 - 2020 (current)

FULL STACK SOFTWARE ENGINEER

CERTIFIED PARKING ATTENDANTS, LLC

Sole software engineer of a private, greenfield web application that runs the critical day-to-day operations of the business. Built with modern APIs, LEAP is a custom CRM and ERM. The app provides features such as:

- Stack: PHP, Laravel, Vue, Nuxt, jQuery, MySQL, Redis, Docker, SASS, Tailwind CSS
- Generation of business quotes/contracts
- Payment processing
- Extensive staff/event scheduling
- Streamline hiring/training/retention
- Generating business reports (financial/forecasting)
- Integration of several external APIs (mapping, SMS, weather, email, storage)

2008 - 2011

OPERATIONS MANAGER

CERTIFIED PARKING ATTENDANTS, LLC

Overseeing the services that Certified Parking Attendants offer to ensure that clients and employees feel valued. Leading a large team at events in the Bay Area at high profile locations to ensure superior customer service. Building great employee / customer rapport.

2005 - 2008

EXECUTIVE TEAM LEADER

TARGET CORPORATION

Drive sales by overseeing the customer service and leadership of six to eight departments with sales ranging from $2 - $9 million. Set goals and expectations for the store. Strive to achieve sales goals and maintain budget controls. Coach and follow up with employees, including performing reviews and corrective action.
